Program Instructions

1. Turn on and set volume on speakers

2. Insert CD-ROM into CD-ROM drive

3. Make sure mouse is connected to complete activities

4. Change resolution to 800 by 600 if current resolution is 1024 by 768 or higher **(optional)**

    a. right mouse click on the Desktop
    b. select the Properties command
    c. click the Settings tab
    d. move the Screen Area level to 800 by 600

    Note: Step 4 is strictly **optional**. The program will work without changing the resolution. However, it may appear small on your screen with a higher resolution such as 1024 by 768 or higher.

5. Double-click the **".exe" (Application)** file on the CD

6. Follow the on screen text instructions and voice-over narration

7. View navigating instructions on page 2 of program

8. Continue navigating through the program using navigating buttons at the bottom of each screen
